Salesbury Super 6 Knowledge Organiser for KS1

SCHOOL

Learning Focus: Geography (One World)

Key knowledge to learn

- The difference between human and physical features in our local area and in Sandouping in China.
- 2 Seasonal and daily weather patterns in the UK.

Locate hot and cold areas in the world in relation to the Equator and North and South Poles.

6

- Use world maps, atlases and globes to identify the UK and its countries
- 5 Use world maps, globes and atlases to identify the 7 continents and 5 oceans.

Locate China on a map/globe.

Human and Physical featuresHuman features – built by people Physical features – naturally here.Continents and OceansContinent- a large solid area of land, there are 7 continents. Ocean – A huge area of salt water.North and South PoleThe North Pole is at the top of the world in the Artic region. It is at the northernmost point on the Earth's axis. The South Pole is at the bottom of the world in the Antarctic continent. It is at the southernmost point on the Earth's axis.EquatorThe imaginary line around the middle of the Earth. It is half way between the North and South Pole.AtlasA collection of maps in a book.GlobeA 3D model of the Earth.	Vocabulary	SCHOOD
OceansOcean – A huge area of salt water.North and South PoleThe North Pole is at the top of the world in the Artic region. It is at the northernmost point on the Earth's axis. The South Pole is at the bottom of the world in the Antarctic continent. It is at the southernmost point on the Earth's axis.EquatorThe imaginary line around the middle of the Earth. It is half way between the North and South Pole.AtlasA collection of maps in a book.	•	
North and South Poleat the northernmost point on the Earth's axis. The South Pole is at the bottom of the world in the Antarctic continent. It is at the southernmost point on the Earth's axis.EquatorThe imaginary line around the middle of the Earth. It is half way between the North and South Pole.AtlasA collection of maps in a book.		
Equator between the North and South Pole. Atlas A collection of maps in a book. Allow A 2D model of the Earth	North and South Pole	at the northernmost point on the Earth's axis. The South Pole is at the bottom of the world in the Antarctic
Atlas A 2D model of the Earth	Equator	
Globe A 3D model of the Earth.	Atlas	A collection of maps in a book.
	Globe	A 3D model of the Earth.
