Salesbury Super 6 Knowledge Organiser for History

Learning Focus: Time Travellers: History of Fashion

Key knowledge to learn

- **Fashion** describes the items and styles of clothing worn during different periods of time. Historical and cultural fashions are sometimes called **costumes**. Military and clothing for work is known as a **uniform**.
- Clothing and fashion have many purposes including: to protect, camouflage, attract, for religious and cultural reasons, for jobs and activities and to differentiate between the rich and poor. Clothing reflects what life was like during that period of time.
- Clothing can be made out of **natural** and **man-made** materials. Changes in attitudes and manufacturing brought about a fashion revolution in modern times.
- WWI and WWII brought huge changes in fashion because of the roles that men and women played in the war and also because material was in short supply Make Do and Mend!
- Music and film influenced fashion in the 1960s and 1970s.
 - **Fast fashion** is not sustainable and it has a negative impact on our planet by contributing to the greenhouse gases that cause climate change. **Sustainable fashion** creates longer-lasting, higher quality and more environmentally friendly clothes. **Recycling and charity shops** support the planet too.

Vocabulary	
Chronology	Placing events in order of time.
Prehistoric	A period in time before written records.
Period	A measure of time. A decade is a period of 10 years. A century is 100 years. A millennium is a period of 1000 years.
